In the New World during the 17th century, battles were raging as colonists struggled against Indigenous peoples. One of the first was known as the Pequot War, which lasted two years from 1634 through 1638. At the heart of this conflict, the Pequot and Mohegan tribes fought each other for political power and trading capabilities with the newcomers.

The following is a list of the casualties count in battles in world history. The list includes both sieges (not technically battles but usually yielding similar combat-related deaths) and civilian casualties during the battles. Large battle casualty counts are almost impossible to calculate precisely. Many of these figures are estimates, and, where possible, a range of estimates is presented.
