Problem Set 4

ThoughtCo

$P(B|A)$ is also called the

"Conditional Probability" of B given A. And in our case:

$P(B|A) = 1/4$. So the probability of getting 2 blue marbles is:

And we write it as "Probability of event A and

Read Online

Problem Set 4

event B equals the probability of event A times the probability of event B given event A" Let's do the next example using only notation:
