Rosalind Franklin : The Dark Lady of DNA: Brenda Maddox ...

This biography is far superior to the personal vendetta waged against J D Watson on Franklin's behalf by Anne Sayre (see my comments on "Rosalind Franklin and DNA" by Anne Sayre). Rosalind Franklin is the King's College scientist who obtained the x-ray photograph of the B form of DNA which was an important piece of information in the eventual description of a model of the structure of DNA that was described by J D Watson and FHC Crick in 1953, and for which they, along with Maurice Wilkins ...

Rosalind Franklin: The Dark Lady of DNA book by Brenda Maddox

Rosalind Franklin A crucial contribution. Biographer Brenda Maddox called her the "Dark Lady of DNA," based on a once disparaging reference to Franklin by one of her coworkers.

Rosalind Franklin - DNA, Facts & Death - Biography

Rosalind Elsie Franklin (25 July 1920 - 16 April 1958) was an English chemist and X-ray crystallographer whose work was central to the understanding of the molecular structures of DNA (deoxyribonucleic acid), RNA (ribonucleic acid), viruses, coal, and graphite. Although her works on coal and viruses were appreciated in her lifetime, her contributions to the discovery of the structure of DNA ...

Rosalind Franklin - Wikipedia

Rosalind Franklin: The Dark Lady of DNA, by Brenda Maddox. - book suggestion. Booklist for Rosalind Franklin. In science it often happens that scientists say, 'You know that's a really good argument; my position is mistaken,' and then they would actually change their minds and you never hear that old view from them again. They really do it.

Rosalind Franklin Quotes - 17 Science Quotes - Dictionary ...

The personality of Rosalind Franklin was an interesting one as revealed in "Dark Lady" as she could be gentle and caring and as fierce as a rottweiler. She always looked people in the eye when she spoke to them and those dark, eloquent eyes could be unnerving.
